Subject: Request for editorial input for SETAC document
Attachments: SETAC - Lab Chap - Figures 1,2,3 for change - HThompson.docx

Helen,

Hi. I hope you are well.

It has been a while, but Dave Fischer and I are trying to get the SETAC document to print. We have received and nearly completed incorporating external comments (from Gavin Lewis and May Berenbaum) into the document. (Comments and by-and-large, were editorial in nature, which was good news.)

I originally approached Jim Frazier, but via Cynthia Scott-Dupree, I was informed that perhaps I need to speak with you about some particular edits. With any luck, you may be able to help me with several particular comments we received on tables 8-1, 8-2, and 8-3. Since I only have them as an image, I could not do the changes myself.

In the attached doc. are the three tables with comments in highlight below each (diagnol lines, and some name changes).

Please let me know if you can send me new images with the highlighted changes made to the tables (or just the tables as files so I can make the chages ... if you do, I will send the revised tables back to you).

We hope to get the whole manuscript back to SETAC in a week or so. Following that it will go to copy editing. When copy edit is done, it is sent out for final review to all members of the conference (typo and factual error only) then off to prin. Still, a ways to go, but we are making progress.

Take care, and I hope to speak with you soon,

You can reach me at my desk: 703-305-5035, or my cell: Ex. 6 Personal Privacy (PP)

Kindest regards,
tom m
